

Everyone loves a wise old owl! Let's create "Owl" from Sam Sparrow together!

1. We like to start this craft by taking a nice, long nature hike and finding the perfect pinecone!
2. Next, find scraps of fun paper. You don't need to make your owl look like the owl in the book. Instead of using scraps of paper, you can print on normal paper and color over different abrasive surfaces to make different textures (like bark or bricks). Be creative!
3. Print this template on a piece of cardstock if you have one, and cut the pieces out.
4. Use the pieces as a guide to cut the pieces of owl from your different scrap papers. Assemble your owl with quick-set glue (like Tacky Glue).

Optional: Use 12mm googly eyes instead of the black portions of the eye that are provided on this template.
